Volunteer as a vaccination steward

Description

Your local Primary Care Network (North Uttlesford Surgeries) is successfully delivering a COVID-19 vaccination programme but it needs your help.

You can help the vaccination process run smoothly and safely by becoming a Vaccination Steward.

The local vaccination station will usually be open on a Saturday, although sometimes on Fridays or Sundays. Volunteers are asked to commit to individual sessions of four hours plus 15 minutes' handover time.

Volunteers will be required to prove a negative Covid test prior to volunteering. This can be either a home test or taken at Great Dunmow.

This is an exciting opportunity to play your part in protecting the community and saving lives.

The skills required are empathy and good communication.
